**Impact of Budget in Share Market**

3484. SHRI N. GIRIPRASAD : Will the Minister of FINANCE be pleased to state :

(a) whether it is a fact that the share market showed bearish trend after 1993-94 annual budget presentation;

(b) if so, what are the reasons for this trend;

(c) in what way budget proposals contributed for the downward trend in share prices; and

(d) whether Government wants to intervene to revise the trend ?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE AND THE MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS (DR. ABRAR AHMED) : (a) to (c) The share market has shown a downward rend after the presentation of the Budget for 1993-94. The movement of share prices is determined by several factors such as market sentiment, expectations of the investors etc. There is no objective reason why any of the Budget proposals should have a negative effect on share prices. However, the lack of specific concessions for the capital market in the areas of direct taxes, could have contributed to some decline in the level of share prices, if expectations had built up among investors that such concessions would be offered.

(d) The normal mechanism for regulating the capital market does not involve Government intervening directly in the share market for regulating the level of share prices.
